The accompanying notes form an integral part of these unaudited condensed interim financial statements

CANICKEL MINING LIMITED

NOTES TO CONDENSED INTERIM FINANCIAL STATEMENTS

(Unaudited - Expressed in Canadian Dollars, except share data and otherwise stated)

1. CORPORATE INFORMATION

CaNickel Mining Limited (“CaNickel” or “the Company”) is a Canadian mining company focused on nickel mining and related activities, including exploration and the extraction and processing of nickel-containing ore. The current registered office and corporate head office of the Company is located at Suite 1655, 999 West Hastings Street, Vancouver, British Columbia, Canada.

Due to the unfavorable nickel price, the Company’s only operational mine, Bucko Lake Mine, was placed into care and maintenance in July 2012. Since then, the Company’s main objective have been focused on carrying minimum exploration program and running the care and maintenance program at Bucko Lake Mine to safeguard assets.

2. BASIS OF PREPARATION

a) Statement of Compliance

These unaudited condensed interim financial statements have been prepared in accordance with IAS 34 – *Interim Financial Reporting*, as issued by the International Accounting Standards Board (“IASB”). Accordingly, certain disclosures included in annual financial statements prepared in accordance with International Financial Reporting Standards (“IFRSs”) as issued by the IASB have been condensed or omitted and these unaudited condensed interim financial statements should be read in conjunction with the Company’s audited financial statements for the year ended December 31, 2013.

b) Basis of Measurement

These financial statements have been prepared on a historical cost basis. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information. All financial information in these financial statements is presented in Canadian dollars, except as otherwise stated.

The accounting policies applied in preparation of these financial statements are consistent with those applied and disclosed in the Company’s audited financial statements for the year ended December 31, 2013, with the exception of the application of a new IFRS standard by issued the IASB, which was effective from January 1, 2014 and is described in note 3 below.

These financial statements have assumed that the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation, and therefore, these financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue in existence. However, the Company has incurred significant losses, negative working capital, and negative cash flow from operations in recent years, which indicate the existence of a material uncertainty that may cast significant doubt on the Company’s ability to continue as a going concern. In the event that Company is not able to secure additional financing and continue as a going concern, material adjustments would be required to the carrying value of assets and liabilities and the balance sheet classification used.

CANICKEL MINING LIMITED

NOTES TO CONDENSED INTERIM FINANCIAL STATEMENTS

(Unaudited - Expressed in Canadian Dollars, except share data and otherwise stated)

To address its financing requirements, the Company is currently relying on advance from its related parties, mainly Hebei Wenfeng Industrial Company Limited (“Hebei Wenfeng”), the largest beneficial shareholder and creditor of the Company. However, there is no assurance that Hebei Wenfeng will continue to fund the Company without any limit.

The Board of Directors approved these condensed interim financial statements on November 4, 2014.

3. CHANGES IN ACCOUNTING POLICIES

The Company has applied **IFRIC 21, Levies (“IFRIC 21”)**, effective January 1, 2014. IFRIC 21 provides guidance on the accounting for a liability to pay a levy, if that liability is within the scope of IAS 37, Provisions, Contingent Liabilities and Contingent Assets. Levies are imposed by governments in accordance with legislation and do not include income taxes, which are accounted for under IAS 12, Income Taxes or fines or other penalties imposed for breaches of legislation. The interpretation was issued to address diversity in practice around when the liability to pay a levy is recognized. An example of a common levy is property taxes.

IFRIC 21 defines an obligating event as the activity that triggers the payment of the levy, as identified by legislation. A liability to pay a levy is recognized at the date of the obligating event, which may be at a point in time or over a period of time. The fact that an entity is economically compelled to continue to operate in the future, or prepares its financial statements on a going concern basis, does not create an obligation to pay a levy that will arise in a future period as a result of continuing to operate.

The adoption of IFRIC 21 did not affect our financial results or disclosures as our analysis determined that no changes were required to our existing accounting treatment of levies.

4. LOSS FROM MINE OPERATIONS

The Company’s only operational mine, Bucko Lake Mine, has been placed into care and maintenance since July 2012. Expenditures incurred at Bucko Lake Mine during the care and maintenance period are expensed or capitalized if the expenditures are capital in nature and determined to be recoverable in the future operations.

	Three months ended September 30,		Nine months ended September 30,	
	2014	2013	2014	2013
Care and maintenance costs				
Cash cost	\$ 350,275	\$ 321,686	\$ 882,725	\$ 1,299,805

In August 2014, the Company disposed AER-Kidd Property, a property located in Sudbury, Ontario and written off in prior periods, for gross proceeds of \$1,250,000, and a net gain of \$1,242,347 was recorded.

CANICKEL MINING LIMITED**NOTES TO CONDENSED INTERIM FINANCIAL STATEMENTS**

(Unaudited - Expressed in Canadian Dollars, except share data and otherwise stated)

8. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

	September 30, 2014	December 31, 2013
Amounts due to non-related parties	\$ 1,808,056	\$ 2,377,916
Amounts due to a related party	8,941,850	7,423,010
	\$ 10,749,906	\$ 9,800,926

Amounts due to a related party are funds the Company advanced from Hebei Wenfeng to carry the care and maintenance program at Bucko Lake Mine and activities to safeguard assets of the Company. Those advances bear no interest and are due on demand.

During the three and nine months ended September 30, 2014, the Company retired some accounts payable at significant discounted amounts, and a total of \$100,608 and \$151,428, respectively, (same period last year - \$6,022 and \$192,530, respectively) was realized and recorded as portion of the other income and expense on the condensed interim statements of comprehensive loss.

In 2013, Manitoba Finance conducted a Retail Sales Tax (“RST”) audit in relation to the Company’s purchases and expenditures incurred and for the operations in Manitoba over the past five years, and a total of \$546,398 liabilities were accrued as at December 31, 2013 based on the preliminary audit results. In April 2014, Manitoba Finance finalized their audit and required the Company to pay \$515,933 RST liabilities, which including \$37,440 penalty and \$106,135 interest. Based on the final audit result, the Company revised the RST liabilities accrued at December 31, 2013, and the difference of \$30,465 was recorded as other income on the condensed interim statements of comprehensive loss.

Upon the Company’s application, Manitoba Finance agreed to waive the interest of \$106,135 subject to the full payment of all other remaining amounts and a monthly \$10,000 instalment repayment plan. However, the unpaid amount of the RST liabilities are subject to monthly compound interest at the current annual rate of 9%.

9. LOANS PAYABLE

	September 30, 2014	December 31, 2013
Loan facility with Hebei Wenfeng Industrial Company Limited	\$ 7,660,575	\$ 6,767,149
Loan facility with Luckyup Investment Limited	39,022,645	34,054,970
	\$ 46,683,220	\$ 40,822,119

In May 2011, the Company arranged a one year term unsecured debt facility of US\$5,000,000 (the “Loan”) with Hebei Wenfeng. The Loan bears interest at 10% per annum. The Company will also pay 2% of any funds drawn down under the Loan as a structuring fee to Hebei Wenfeng. Principal, interest and structure fees are payable upon maturity. In March 2012, the Loan was amended and extended to three years term maturing May 28, 2014. During the three and nine months ended September 30, 2014, interest expenses of \$175,655 and \$517,050 (same period last year - \$152,196 and \$439,627), respectively, were accrued and foreign exchange loss of \$360,112 and \$376,376 (same period last year – a gain of \$127,364 and a loss of \$207,490), respectively, were recorded 264 foreign exchange loss) was recorded on the Loan. As at

CANICKEL MINING LIMITED

NOTES TO CONDENSED INTERIM FINANCIAL STATEMENTS

(Unaudited - Expressed in Canadian Dollars, except share data and otherwise stated)

September 30, 2014, the outstanding balance of the Loan, including interest accretion and foreign exchange impact, was \$7,660,575.

The Company entered into an unsecured debt facility of up to US\$15 million in July 2011 and increased to US\$25 million in December 2011 with Luckyup Investment Limited ("Luckyup"), an arm's-length party based in Hong Kong. This debt facility bears interest of 12% per annum. Principal and interest are payable upon maturity. In March 2012, the Company entered into an amended agreement with Luckyup to extend the maturity date from one year term to three years term expiring July 22, 2014. During the three and nine months ended September 30, 2014, interest expenses of \$1,584,575 and \$3,602,474 (same period last year - \$890,562 and \$2,562,347), respectively, was accrued and foreign exchange losses of \$1,831,402 and \$1,905,201 (same period last year – a gain of \$636,784 and a loss of \$1,029,691), respectively, were recorded on this debt facility. As at September 30, 2014, the outstanding balance of this debt facility, including interest accretion and foreign exchange impact, was \$39,022,465.

Subsequent to September 30, 2014, Luckyup irrevocably and unconditionally transferred/assigned to Hebei Wenfeng all of its present and future right, title and interest and to the debt facility agreement and its related amendments with the Company, including but not limited to the right to receive future repayments and interest arising from the debt facility. Upon this transfer, all loans payable are becoming related party transactions, payable to Hebei Wenfeng.

Subsequent to September 30, 2014, the Company received a notice from Hebei Wenfeng that Hebei Wenfeng is to forgive the Company a total of US\$3,500,000 interest.

10. CAPITAL LEASE OBLIGATIONS

The Company has financed purchases of certain mining equipment through capital leases. The following table summarizes the changes to the capital lease obligations.

	September 30, 2014	December 31, 2013
Balance, beginning of period	\$ 307,171	\$ 1,713,111
Interest accrual	7,211	45,019
Discharge	(307,691)	(1,450,959)
Balance, end of period	\$ 6,691	\$ 307,171

Subsequent to September 30, 2014, all capital lease obligations were retired.

11. SITE CLOSURE AND RECLAMATION PROVISIONS

	September 30, 2014	December 31, 2013
Balance, beginning of year	\$ 1,906,306	\$ 2,041,736

12. SHARE CAPITAL

(a) Authorized

Unlimited common shares without par value

Unlimited class A & Class B preference shares without par value.

(b) Stock Options

The Company has a stock option plan designed to encourage directors, officers, employees and consultants of the Company to have equity participation in the Company through the acquisition of common shares. The Company may issue options to purchase common shares equal to 10% of the issued and outstanding common shares of the Company. Options are non-transferable, non-assignable and may be granted for a term not exceeding five years. The exercise price of the options and vesting provisions, if any, are fixed by the Board of Directors of the Company at a price not below the market price of the common shares at the time of grant, subject to all applicable regulatory requirements. There are no cash settlement alternatives.

No option was granted during the periods reported and the continuity of stock options issued and outstanding is as follows:

	Number of Options	Weighted Average Price
Outstanding, January 1, 2013	109,750	\$ 2.78
Cancelled/Forfeited	(56,375)	2.73
Outstanding, December 31, 2013	53,375	2.83
Cancelled/Forfeited	(875)	5.26
Outstanding, September 30, 2014	52,500	\$ 2.73

As of September 30, 2014, the following stock options were outstanding:

Number of Options	Number of Options Exercisable as at September 30, 2014	Exercise Price	Expiry Date
1,250	1,250	\$ 6.40	March 15, 2015
46,250	46,250	\$ 2.60	January 10, 2016
5,000	5,000	\$ 3.00	June 22, 2016
52,500	52,500		

13. RELATED PARTY TRANSACTIONS

Related party transactions were in the normal course of operations and were measured at the exchange amount, which is the amount of consideration established and agreed by the related parties. Related party transactions with Hebei Wenfeng, the largest shareholder of the Company, are disclosed in note 8 and note 9 above.

CANICKEL MINING LIMITED

NOTES TO CONDENSED INTERIM FINANCIAL STATEMENTS

(Unaudited - Expressed in Canadian Dollars, except share data and otherwise stated)

The Company has identified its directors and certain senior officers as its key management personnel. The compensation cost for key management personnel is as follows:

	Three months ended September 30,		Nine months ended September 30,	
	2014	2013	2014	2013
Salaries and fees	\$ 41,250	\$ 38,850	\$ 123,750	\$ 123,750
Share based compensation	-	-	-	1,856
	\$ 41,250	\$ 38,850	\$ 123,750	\$ 125,606

14. FAIR VALUE MEASUREMENTS

Fair value estimates are made at a specific point in time, based on relevant market information and information about the assets and liabilities. These estimates are subjective in nature and involve uncertainties and matters of significant judgment, and therefore, cannot be determined with precision. Changes in assumptions could significantly affect estimates.

Management assessed the fair value of receivables and accounts payable and accrued liabilities approximate their carrying amounts largely due to the short-term maturities of these financial instruments. Set out below is a comparison by class of the carrying amounts and fair value of the Company's financial instruments, other than those with carrying amounts are reasonable approximations of fair values:

	Measurement method	Carrying amount		Fair value	
		September 30, 2014	December 31, 2013	September 30, 2014	December 31, 2013
As at					
Financial liabilities					
Loans payable	Amortized cost	\$ 46,683,220	\$ 40,822,119	\$ 46,683,220	\$ 38,287,173
Obligations under capital leases	Amortized cost	\$ 6,691	\$ 307,171	\$ 6,730	\$ 314,181

The quantitative disclosures on financial instruments measured at fair value on a recurring basis, non-financial assets and liabilities measured at fair value, assets and liabilities with fair value disclosed are as follows:

	September 30, 2014			December 31, 2013		
	Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (level 3)	Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (level 3)
Assets and liabilities measured at fair value						
Cash	\$ 955,150	\$ -	\$ -	\$ 57,833	\$ -	\$ -
Mineral Property, plant and equipment used at Bukco Lake Mine	-	-	10,956,435	-	-	12,692,212
Site closure and reclamation provisor	-	-	1,944,907	-	-	1,906,306
Assets and liabilities for which fair value are disclosed						
Loans payable	\$ -	\$ 46,683,220	\$ -	\$ -	\$ 38,287,173	\$ -
Obligations under capital leases	-	6,730	-	-	314,181	-

CANICKEL MINING LIMITED

NOTES TO CONDENSED INTERIM FINANCIAL STATEMENTS

(Unaudited - Expressed in Canadian Dollars, except share data and otherwise stated)

There was no asset categorized as level 2 in the fair value hierarchy, no liability categorized as level 1, and no transfer between fair value levels during the reporting period.

15. FINANCIAL INSTRUMENTS

The Company manages its exposure to key financial risk in accordance with the Company's financial risk management framework. The objective of the framework is to protect the Company's future financial security. The main risks that could adversely affect the Company's financial assets, liabilities or future cash flows are liquidity risk, credit risk and market risk, which comprising foreign exchange rate risk, interest rate risk, and metal price risk. The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework and reviews the Company's policies on an ongoing basis. Currently, the Company does not apply any form of hedge accounting.

a) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's trade receivables. The carrying value of financial assets represents the maximum credit exposure. Currently, no trade receivable is outstanding and therefore such credit risk is remote.

b) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages liquidity risk through regular forecasting and the management of its capital structure. As at September 30, 2014, the Company has limited funds to meet its short term financial liabilities, and the working capital, net of \$8,941,850 advances from a related party and \$46,683,220 loans payable, was in a deficit position of \$251,947. Accordingly, additional financing is required for the Company to continue as a going concern. Based on the contractual obligations of the Company as at September 30, 2014, cash outflow of those obligations are estimated and summarized as follows:

Contractual Obligations	Payment Due by Period			Total
	Less than 1 year	1 - 3 years	After 5 years	
Loans payable	\$ 46,683,220	\$ -	\$ -	\$ 46,683,220
Finance lease obligations	6,730	-	-	6,730
Accounts payable and accrued liabilities	10,749,906	-	-	10,749,906
Total Contractual Obligations	\$ 57,439,856	\$ -	\$ -	\$ 57,439,856

c) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise three types of risk: interest rate risk, currency risk, and commodity price risk. Financial instruments affected by market risk include loans and borrowings, deposits, accounts receivable, accounts payable and accrued liabilities, and derivative financial instruments.

CANICKEL MINING LIMITED

NOTES TO CONDENSED INTERIM FINANCIAL STATEMENTS

(Unaudited - Expressed in Canadian Dollars, except share data and otherwise stated)

i) Interest rate risk

The Company has cash subject to fluctuations in interest rates. The Company's current policy is to invest excess cash in short-term deposit issued by financial institutions. As at September 30, 2014, the Company had \$46,683,220 loans payable bearing fixed coupon rates of 10% to 12% per annum, therefore change of interest rate has no effect on the Company's comprehensive loss. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks. The Company also monitors the debt facility interest rates and balance advanced under the facilities. Currently, the Company does not hedge against interest rate risk.

ii) Foreign currency risk

The Company's functional currency is the Canadian dollar and major purchases are transacted in Canadian dollars. The Company is exposed to foreign exchange risk as a result of sales transactions and financing activities being denominated in US dollars. As at September 30, 2014, the following financial assets and liabilities are denominated in US Dollars.

Expressed in Canadian dollar equivalents	September 30, 2014	December 31, 2013
Financial assets denominated in US Dollars		
Cash	\$ 917	\$ 202
	917	202
Financial liabilities denominated in US Dollars		
Accounts payables and accrued liabilities	5,379,840	5,115,773
Loans payable	46,683,220	40,822,120
	\$ 52,063,060	\$ 45,937,893

Based on the financial assets and liabilities denominated in US dollars as at September 30, 2014, every 1% strengthening in Canadian dollars would decrease net loss by \$520,621(December 31, 2013 - \$459,377). Every 1% weakening in Canadian dollars would increase net loss by \$520,621 (December 31, 2013 - \$459,377). The Company currently has not entered into any agreement to hedge the foreign exchange risk.

iii) Commodity price risk

The Company is exposed to price risk with respect to commodity prices, mainly nickel prices. The Company closely monitors commodity prices to determine the appropriate course of action to be taken. The Company's future mining operations will be significantly affected by changes in the market prices for nickel. Prices fluctuate on a daily basis and are affected by numerous factors beyond the Company's control. The supply and demand for nickel, the level of interest rates, the rate of inflation, investment decisions by large holders of nickel and stability of exchange rates can all cause significant fluctuations in nickel prices. Such external economic factors are in turn influenced by changes in international investment patterns and monetary systems and political developments.

In July 2012, the Company suspended its mining operation due to unfavourable nickel prices. The timing to resume mining operations would mainly depend on the nickel prices. As at September 30, 2014, the Company has no nickel sales receivable, forward sales contracts, or call options outstanding. Change of

CANICKEL MINING LIMITED

NOTES TO CONDENSED INTERIM FINANCIAL STATEMENTS

(Unaudited - Expressed in Canadian Dollars, except share data and otherwise stated)

commodity prices would not have any significant impact on the financial position of the Company as at September 30, 2014.

16. CONTINGENCIES AND LEGAL MATERS

Since the mining operation was suspended in July 2012, the Company has been encountering difficulties in retiring some outstanding accounts payables in accordance with terms provided by vendors, and therefore expects that some liens will be placed and legal actions will be initiated. As at September 30, 2014, there was one lien placed against Bucko Lake Mine for \$377,086. In January 2014, the Company received a statement of claim for \$377,086 from the same contractor who placed the lien against Bucko Lake Mine. The Company believed that it has fulfilled its contracted obligations to make payment to the contractor and the claim has no base; accordingly, the Company retained a legal counsels to file as statement of defense and also made a counter claim for refund of overpayment for services not delivered and damages to be determined by court. No further action was carried by the plaintiff since our filing of the defence and counter claim. No provision has been provided for this claim.

In September 2014, the Company reached a settlement agreement with one vendor who filed a statement of claim against the Company in prior year and paid 50% of the amount claimed to the vendor, and a gain of \$69,825 was recorded on this settlement.

As at September 30, 2014, there were two statements of claims against the Company for a total of approximately \$390,000 remained outstanding, of which a total of \$21,850 provisions have been recorded and included in the accounts payable and accrued liabilities on the condensed interim statement of financial position.

17. SUPPLEMENTAL CASH FLOW INFORMATION

	Three months ended September		Nine months ended September 30,	
	2014	2013	2014	2013
Net change in non-cash working capital				
Decrease in receivables and prepaid expenses	\$ 1,580	\$ 24,964	\$ 122,829	\$ 104,109
Decrease in inventory	27,940	-	32,705	33,325
Decrease in accounts payable and accrued liabilities	(147,748)	(344,702)	(432,657)	(875,374)
	\$ (118,228)	\$ (319,738)	\$ (277,123)	\$ (737,940)

As at September 30, 2014, \$219,590 (December 31, 2013 - \$210,685) was included in accounts payable and accrued liabilities to acquire mineral properties, plant and equipment.

18. SEGMENTED INFORMATION

The Company currently operates in a single reportable segment and is focused on nickel mining and related activities, including exploration and the extraction and processing of nickel-containing ore. All assets of the Company are located in Canada. No revenue is recorded during the period reported as the Company's only operational mine is on care and maintenance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the three and nine months ended September 30, 2014

MANAGEMENT'S DISCUSSION AND ANALYSIS

of financial condition and results of operations

for the three and nine months ended September 30, 2014

The Management's Discussion and Analysis ("MD&A") focuses on significant factors that affected the performance of CaNickel Mining Limited, ("we", "our", "us", "CaNickel", or the "Company") and such factors may also affect future performance. The MD&A for the three and nine months ended September 30, 2014 should be read in conjunction with the Company's unaudited condensed financial statements for the three and nine months ended September 30, 2014 and the audited financial statements for the year ended December 31, 2013 and the related notes contained therein, which have been prepared in accordance with International Financial Reporting Standards ("IFRS"), and the Annual Information Form, which were prepared by management and available on SEDAR at www.sedar.com.

This MD&A is prepared as at November 04, 2014 and all figures are in Canadian dollars unless otherwise indicated. Some of the statements in this MD&A are forward-looking statements that are subject to risk factors set out in the cautionary note contained therein.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION

Except for statements of historical fact relating to CaNickel, certain information contained herein constitutes forward-looking information. Forward-looking information includes, but is not limited to, statements with respect to the ability to continue as going concern; continued support and funding from Hebei Wenfeng; foreign exchange rates; the timing for the construction of tailing facility and resumption of operations at Bucko Lake Min, and environmental risks. Generally, forward-looking information can be identified by the use of forward-looking terminology such as "plans", "expects" or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or statements that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved". Forward - looking information is based on the opinions and estimates of management as of the date such statements are made. Estimates regarding the anticipated timing, amount and cost of mining at the Company's projects are based on assumptions underlying mineral reserve and mineral resource estimates and the realization of such estimates are set out herein. Capital and operating cost estimates are based on extensive research of the Company, purchase orders placed by the Company to date, recent estimates of construction and mining costs and other factors that are set out herein. Production estimates are based on mine plans and production schedules, which have been developed by the Company's personnel and independent consultants. These estimates are subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of CaNickel to be materially different from those expressed or implied by such forward-looking information, including but not limited to risks related to: unexpected events and delays during construction, expansion and start-up; variations in mineral grade and recovery rates; delay or failure to receive government approvals; timing and availability of external financing on acceptable terms; actual results of current exploration activities; changes in project parameters as plans continue to be refined; future prices of nickel and other minerals; failure of plant, equipment or processes to operate as anticipated; accidents, labour disputes and other risks of the mining industry. Although management of the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking information.

DESCRIPTION OF BUSINESS

CaNickel is a Canadian mining company focused on nickel mining and related activities, including exploration and the extraction and processing of nickel-containing ore. The current registered office and corporate head office of the Company is located at Suite 1655, 999 West Hastings Street, Vancouver, British Columbia, Canada.

CaNickel Mining Limited

The business of mining and exploring for minerals involves a high degree of risk and there can be no assurance that current operations, including exploration programs, will result in profitable mining operations. The recoverability of the carrying value of exploration and development properties and the Company's continued existence is dependent upon the preservation of its interest in the underlying properties, the discovery of economically recoverable reserves, the achievement of profitable operations, the ability of the Company to raise additional financing, if necessary, or alternatively upon the Company's ability to dispose of its interests on an advantageous basis. Changes in future conditions could require material write-downs of the carrying values.

Due to the unfavorable nickel price, the Company's only operational mine, Bucko Lake Mine, was placed into care and maintenance in July 2012. Since then, the Company's main objectives have been focused on carrying minimum exploration program and running the care and maintenance program at Bucko Lake Mine to safeguard assets. Whether and when the Company will resume the mining operation and attain profitability and positive cash flow is uncertain and depends on numerous factors, including but not limited to production level, production cost, ore grade, metallurgy, and nickel price.

Also, the Company has incurred significant losses, negative working capital, and negative cash flow from operations in recent years, which indicate the existence of a material uncertainty that may cast significant doubt on the Company's ability to continue as a going concern. In the event that Company is not able to secure additional financing and continue as a going concern, material adjustments would be required to the carrying value of assets and liabilities and the balance sheet classification used.

To address its financing requirements, the Company is currently relying on advances from Hebei Wenfeng Industrial Company Limited ("Hebei Wenfeng"), the largest beneficial shareholder of the Company.

OPERATION REVIEW

Since the Company placed its only operational and 100% owned mine, Bucko Lake Mine, on care and maintenance in July 2012 as a result of the unfavorable nickel price, the Company has been looking at alternatives to minimize cost to run the care and maintenance program to safeguards assets and ensure compliances. Excluding the non-cash costs, the costs to run the care and maintenance program during the three and nine months ended September 30, 2014 amounted to \$350,275 and \$882,725, respectively (same periods last year - \$321,686 and \$1,299,805, respectively).

As Bucko Lake Mine is placed on the care and maintenance and the timing to resume the operations is uncertain, the commissioning of the paste backfill plant and the construction of the phase II tailing management area are on hold.

The Company's interest in the Bucko Lake mining lease is subject to a back-in right held by Glencore Canada Corporation ("Glencore"), formerly Xstrata Nickel Inc. In the event that the Company identifies a new deposit (in addition to the Bucko Lake Mine) with estimated measured and indicated resources in excess of 200,000,000 pounds of nickel, Xstrata has the right to purchase a 50% interest in the property and to become the operator of the new deposit in consideration for a payment to the Company of an amount equal to the aggregate of all direct expenditures that were incurred by the Company in carrying out mining operations on the Bucko Lake mining lease outside of the Bucko resource block prior to the

CaNickel Mining Limited

date of exercise of the back-in right. Accordingly, the potential benefit to the Company of any discovery of a significantly increased deposit will be limited to a 50% interest in the project.

EXPLORATION

Under the terms of an Exploration Option Agreement (“Agreement”) and Exploration Amending Agreement (“Amending Agreement”) with Glencore, the Company has incurred the required option expenditures and exercised the option to earn in 100% Glencore’s interest in TNB properties (formerly referred to as the TNB North and TNB South Exploration Properties). Titles of the TNB properties have been transferred to the Company.

After an exploration permit granted in July 2014, the Company initiated a survey program at TNB properties. As of September 30, a total of 25.07 line-km of ground time-domain electromagnetic (“TDEM”) surveys and 29.2 line-km of line GPS guided line brushing-out were completed over four separate grids near Thompson, Manitoba. Additional survey program has been planned for the fourth quarter of 2014.

During the nine months ended September 30, 2014, a total of \$183,612 expenditures were incurred at TNB properties, and the accumulated expenditures incurred at TNB properties as of September 30, 2014 were \$21,253,480.

The Company’s 100% interest in the TNB properties is subject to a back-in right whereby should the Company outline a threshold deposit or deposits, each of which exceed 500,000,000 pounds of nickel in measured and indicated resources, Glencore has the right to back-in for a 50% interest and become the operator of the threshold deposit or deposits by incurring expenditures on the property in an amount equal to two times the aggregate of all expenditures which were incurred by the Company in carrying out mining operations on the property prior to the back-in, provided that if Glencore exercises more than one back-in right, then in calculating the required back-in expenditures for each subsequent back-in right, expenditures relating to any previously exercised back-in right are excluded from such expenditure calculation.

The properties are also subject to underlying agreements, specifically i) a 2% net smelter return (“NSR”); and ii) a 10% net proceeds of production royalty payable to Glencore.

RESULTS OF OPERATIONS

Three months ended September 30, 2014 (“Q32014”) vs. Three months ended September 30, 2013 (“Q32013”)

Net loss in Q3 2014 was \$3,340,176 (Q3 2013 - \$426,277), which mainly comprised \$935,098 loss from mine operations (Q3 2013 - \$337,629), \$3,680,446 finance costs (Q3 2013 - \$33,950) offset by \$1,242,347 gain on disposal of mineral property, plant and equipment (Q3 2013 - \$nil) and \$102,774 other income (Q3 2013 - \$6,022). The increased loss was mainly due to the increase of finance costs, particularly, the foreign exchange loss arising from the strengthen US dollars.

Loss from mine operations in Q3 2014 was \$935,098 (Q3 2013 - \$337,629), which were the care and maintenance costs incurred at Bucko Lake Mine. The care and maintenance cost included cash costs of

CaNickel Mining Limited

\$350,275 (Q3 2013 - \$321,686) and non-cash cost, mainly the amortization expenses, of \$584,823 (Q3 2013 - \$15,943). Since Bucko Lake was placed in care and maintenance, the Company has been taking various alternatives to minimize the cash outlays.

Finance costs in Q3 2014 was a loss of \$3,680,446 (Q3 2013 - loss of \$33,950). Finance costs primarily included foreign exchange loss of \$2,447,353 (Q3 2013 – gain \$1,029,787), interest and bank charges of \$1,221,348 (Q3 2013 - \$1,054,549), and accretion of site closure and reclamation provisions of \$12,867 (Q3 2013 - \$9,188) offset by interest income of \$1,122 (Q3 2013 - \$nil). The foreign exchange gain or loss was mainly the effect on the translation of the outstanding balance of US dollar denominated loans payable at the period end due to the fluctuation of the US dollar relative to the Canadian dollar. The increase of interest was mainly due to the increase in the amount and the duration of the outstanding loans payable.

Gain on disposal of mineral property, plant and equipment in Q3 2014 was \$1,242,347 (Q3 2014 - \$nil) as the Company disposed its interest in the AER-Kidd property for gross proceeds of \$1,250,000 net of transaction cost of \$7,653 while no disposal of mineral property, plant and equipment during the same period last year.

General and administration in Q3 2014 was \$17,889 (Q3 2013 - \$16,208). General and administration primarily included office supplies and rents of \$8,193 (Q3 2013 - \$6,191), insurance of \$6,580 (Q3 2013 - \$6,206), and amortization expenses of \$3,116 (same period last year - \$3,811).

Legal and professional fees in Q3 2014 was \$7,834 (Q3 2013 - \$1,265), and the increase of mainly due to the legal fee arising from the preparing of a statement of defence and statement of countered claim to defend the Company position on a legal suit brought by its paste plant contractor.

Other income and expenses in Q3 2014 was an income of \$102,774 (Q3 2013- \$6,022), which was the forgiven amount on the settlements of some overdue accounts payables.

Salaries, consulting and management fees in Q3 2014 was \$42,267, which was comparable to the expense of \$43,846 in Q3 2013.

Shareholder communication and investor relations in Q3 2014 was \$1,763 (Q3 2013 - a reversal of \$599). Shareholder communication and investor relations include the expenses related to regulatory filing, stock exchange listing, annual shareholder meeting, newswire, and investor conference and shows. The Company did not attend any investor conference and shows during the periods reported.

Nine months ended September 30, 2014 vs. Nine months ended September 30, 2013

Net loss during the nine months ended September 30, 2014 was \$7,364,387 (same period last year - \$5,504,344), which mainly comprised \$2,618,502 (same period last year - \$1,369,994) loss from mine operations and finance costs of \$6,183,365 (same period last year - \$4,179,009) offset by \$1,242,347 gain on disposal of mineral property, plant and equipment (same period last year -\$nil). The increased loss was mainly due to the increase of finance costs.

Loss from mine operations during the nine months ended September 30, 2014 was \$2,618,502 (same period last year - \$1,369,994), which was the care and maintenance costs incurred at Bucko Lake Mine.

CaNickel Mining Limited

The care and maintenance cost included cash costs of \$882,725 (same period last year - \$1,299,805) and non-cash cost, mainly the amortization expenses, of \$1,735,777 (same period last year - \$70,189). Since Bucko Lake was placed in care and maintenance, the Company has been taking various alternatives to minimize the cash outlays.

Finance costs during the nine months ended September 30, 2014 was of \$6,183,365 (same period last year – \$4,179,099). Finance costs primarily included foreign exchange loss of \$2,556,652 (same period last year – \$1,106,668), interest and bank charges of \$3,589,234 (same period last year - \$3,046,177), and accretion of site closure and reclamation provisions of \$38,601 (same period last year - \$27,564) offset by interest income of \$1,122 (same period last year - \$1,400). The foreign exchange loss was mainly the effect on the translation of the outstanding balance of US dollar denominated loans payable at the period end due to the appreciation of the US dollar relative to the Canadian dollar. The increase of interest was mainly due to the increase in the amount and the duration of the outstanding loans payable.

Gain on disposal of mineral property, plant and equipment during the nine months ended September 30, 2014 was \$1,242,347 (same period last year - \$nil) as the Company disposed its interest in the AER-Kidd property for gross proceeds of \$1,250,000 net of transaction cost of \$7,653 while no disposal of mineral property, plant and equipment during the same period last year.

General and administration during the nine months ended September 30, 2014 was \$37,797 (same period last year - \$67,077). General and administration primarily included office supplies and rents of \$12,736 (same period last year - \$40,018), insurance of \$15,715 (same period last year - \$15,609), and amortization expenses of \$9,346 (same period last year - \$11,450).

Legal and professional fees during the nine months ended September 30, 2014 was \$8,887, which was comparable to the legal and professional fee of \$7,087.

Other income and expenses during the nine months ended September 30, 2014 was an income of \$420,915 (same period last year – income of \$301,244), which comprised of \$151,428 forgiven amount on accounts payable (same period last year - \$301,244), a reversal of \$30,465 on RST liabilities over accrued in prior period (same period last year - \$nil), and income of \$239,022 from temporarily renting out part of the camp facility (same period last year - \$nil).

Salaries, consulting and management fees during the nine months ended September 30, 2014 was \$127,982 (same period last year - \$141,753).

Shareholder communication and investor relations during the nine months ended September 30, 2014 was \$51,116 (same period last year - \$40,668). Shareholder communication and investor relations include the expenses related to regulatory filing, stock exchange listing, annual shareholder meeting, newswire, and investor conference and shows. The Company did not attend any investor conference and shows during the period reported.

* During the nine months ended September 30, 2012, the Company reclassified smelter charges and by-product credit from cost of goods sold to net of revenue. Such reclassification resulted in decreases in both revenue and costs of goods sold by the same amount for all the periods presented and affected, but had no impact on the loss from mine operation and net loss and comprehensive loss for the periods affected.

The Company's only operational mine, Bucko Lake Mine, was placed on care and maintenance in July 2012, and since then, no revenue was generated.

The fluctuation of US dollars has significant impact on the foreign exchange gain or loss, which included in other items as above. The fluctuation of other items are mainly arising from the fluctuation of foreign exchange unless otherwise specifically stated.

The net loss for the quarter ended December 31, 2013 was mainly due to an adjustment of \$2,113,373 to depletion and depreciation expenses and further \$850,707 impairment charged to Bucko Lake Mine as well as \$1,718,910 foreign exchange loss arising from the strengthen of US dollars.

During the quarter ended December 31, 2012, additional \$14.4 million impairment charges were taken against Bucko Lake Mine.

CaNickel Mining Limited

ANNUAL INFORMATION

	Years ended December 31		
	2013	2012	2011

Loss per share - basis & diluted	\$ (0.33)	\$ (0.88)	\$ (2.61)

*** During the year ended December 31, 2012, the Company reclassified smelter charges and by-product credit from cost of goods sold to net of revenue. Such reclassification resulted in decreases in both revenue and costs of goods sold by the same amount for all the periods presented and affected, but had no impact on the loss from mine operation and net loss and comprehensive loss for the periods affected. For the year ended December 31, 2012 and 2011, revenue presented in the above annual information has been reduced by \$1,807,217 and \$2,025,436 respectively.

Bucko Lake Mine was declared commercial production in June 2009, but has not yet reached its designed capacity and experienced a cycle of startup-suspension and then re-startup and re-suspension for various reasons. Since July 2012, Bucko Lake Mine was placed on care and maintenance.

The loss in 2013 mainly included depreciation, depletion and amortization of \$2,128,534, foreign exchange loss of \$2,825,578, interest expense and bank charge of \$4,141,664 and further impairment charge of \$850,070.

The loss in 2012 included a total of \$20,732,839 impairment charges to Bucko Lake Mine.

The loss in 2011 included a total of \$72,143,079 impairment charges to Bucko Lake Mine.

LIQUIDITY AND CAPITAL RESOURCES

As at September 30, 2014, the Company had cash of \$955,150, increased by \$897,317 compared to cash balance of \$57,833 as at December 31, 2013. The increase of cash on hand was mainly because the Company advanced more funds from Hebei Wenfeng to run the care and maintenance program and the proceeds on disposal of its mineral property, plant and equipment.

Cash used in operating activities for the three months ended September 30, 2014 was \$543,231 compared to a total of \$448,305 cash used in the same period last year. Before net change in non-cash working capital, cash used in operation was \$425,003 (same period last year - \$128,567). More cash used in operating activities was mainly because the Company had to purchase additional material to run the care and maintenance program at Bucko Lake Mine.

Cash used in operating activities for the nine months ended September 30, 2014 was \$1,125,646 compared to a total of \$2,128,186 cash used in the same period last year. Before net change in non-cash working capital, cash used in operation was \$848,523 (same period last year - \$1,390,246). Less cash used in operating activities was mainly because the Company was able to reduce the propane costs and manpower to run the care and maintenance program at Bucko Lake Mine and fewer repayments to overdue accounts payables.

Cash from financing activities for the three months ended September 30, 2014 was \$125,048 (same period last year - \$240,180). During the three months ended September 30, 2014, the Company advanced \$200,000 (same period last year - \$400,000) from a related party and repaid \$74,952 (same period last year - \$159,820) to capital lease obligations.

Cash from financing activities for the nine months ended September 30, 2014 was \$949,520 (same period last year - use of \$180,432). During the nine months ended September 30, 2014, the Company advanced \$1,250,000 (same period last year - \$1,398,250) from a related party and repaid \$300,480 (same period last year - \$1,217,818) to capital lease obligations.

Cash from investing activities for the three months ended September 30, 2014 was \$1,191,683 (same period last year - use of \$174,762), which was for the payment of exploration expenditures. During the three months ended September 30, 2014, a total of \$1,242,347 cash was from disposal of mineral property, plant, and equipment (same period last year - \$nil) offset by payment of \$50,664 for exploration expenditures (same period last year - \$174,762).

Cash from investing activities for the nine months ended September 30, 2014 was \$1,073,443 (same period last year - \$1,708,020). During the nine months ended September 30, 2014, a total of \$174,707 cash was paid for exploration expenditures (same period last year - \$1,498,980) offset by \$5,803 released from restricted cash and \$1,242,347 cash from disposal of mineral properties, plant and equipment (same period last year - \$3,207,000).

Working capital as at September 30, 2014 was a deficit of \$55,877,017 compared to the negative working capital of \$50,109,199 as at December 31, 2013. The increase of working capital deficiency was primarily because the Company has no cash generated from operations and from equity financing activities and is relying on advances from related parties to maintain the normal operations of the Company.

CaNickel Mining Limited

Shareholder's equity as at September 30, 2014 was negative \$26,235,117 (December 31, 2013- negative of \$18,870,730) and the decrease was mainly due to the additional loss of \$7,364,387 was recorded in the current period.

The estimated cash outflow based on the Company's contractual obligations as at September 30, 2014 was amounted to \$57,439,856 and was due within one year. Accordingly, additional financing is required for the Company to continue as a going concern.

To address its financing requirements, the Company is currently relying on advance from its related parties, mainly Hebei Wenfeng Industrial Company Limited (“Hebei Wenfeng”), the largest beneficial shareholder of the Company. Although the Company was able to advance \$1,250,000 from Hebei Wenfeng during the nine months ended September 30, 2014. There is uncertain if the Company could raise funds through other alternatives in the current weak nickel price and equity market conditions

Subsequent to September 30, 2014, Hebei Wenfeng acquires all loans payable to Luckyup Investment Limited and became the sole creditor of the Company’s loans payable. Hebei Wenfeng noticed the Company that a total of US\$3,500,000 interest expenses are forgiven in 2014 and also indicated that they will continue to support the Company and will not recall any repayment in the near future.

However, there is no formal documentation to confirm such arrangement. Therefore, whether Hebei Wenfeng will continue to inject funds to support the care and maintenance program at Bucko Lake and when Hebei Wenfeng will demand repayment to the loans payable remain uncertain.

Such uncertainties cast significant doubt upon the Company’s ability to continue as a going concern. In the event that the above financing efforts are not successful, Hebei Wenfeng discontinues its support or demand repayments, and not able to continue as a going concern, material adjustments would be required to the carrying value of assets and liabilities and the classification presented on the statement of financial position.

The Company's current objective when managing its capital is to safeguard its assets and ability to carry the care and maintenance program at its Bucko Lake Mine and exploration programs at TNB properties.

CaNickel Mining Limited

FAIR VALUE MEASUREMENTS

Fair value estimates are made at a specific point in time, based on relevant market information and information about the assets and liabilities. These estimates are subjective in nature and involve uncertainties and matters of significant judgment, and therefore, cannot be determined with precision. Changes in assumptions could significantly affect estimates.

Management assessed the fair value of receivables and accounts payable and accrued liabilities approximate their carrying amounts largely due to the short-term maturities of these financial instruments. Set out below is a comparison by class of the carrying amounts and fair value of the Company's financial instruments, other than those with carrying amounts are reasonable approximations of fair values:

	Measurement method	Carrying amount		Fair value	
		September 30, 2014	December 31, 2013	September 30, 2014	December 31, 2013
As at					
Financial liabilities					
Loans payable	Amortized cost	\$ 46,683,220	\$ 40,822,119	\$ 46,683,220	\$ 38,287,173
Obligations under capital leases	Amortized cost	\$ 6,691	\$ 307,171	\$ 6,730	\$ 314,181

The quantitative disclosures on financial instruments measured at fair value on a recurring basis, non-financial assets and liabilities measured at fair value, assets and liabilities with fair value disclosed are as follows:

	September 30, 2014			December 31, 2013		
	Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (level 3)	Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (level 3)
Assets and liabilities measured at fair value						
Cash	\$ 955,150	\$ -	\$ -	\$ 57,833	\$ -	\$ -
Mineral Property, plant and equipment used at Bukco Lake Mine	-	-	10,956,435	-	-	12,692,212
Site closure and reclamation provisor	-	-	1,944,907	-	-	1,906,306
Assets and liabilities for which fair value are disclosed						
Loans payable	\$ -	\$ 46,683,220	\$ -	\$ -	\$ 38,287,173	\$ -
Obligations under capital leases	-	6,730	-	-	314,181	-

There was no asset categorized as level 2 in the fair value hierarchy, no liability categorized as level 1, and no transfer between fair value levels during the reporting period.

RISK MANAGEMENT

The Company manages its exposure to key financial risk in accordance with the Company's financial risk management framework. The objective of the framework is to protect the Company's future financial security. The main risks that could adversely affect the Company's financial assets, liabilities or future cash flows are liquidity risk, credit risk and market risk, which comprising foreign exchange rate risk, interest rate risk, and metal price risk. The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework and reviews the Company's policies on an ongoing basis. Currently, the Company does not apply any form of hedge accounting.

Management constantly monitors and assesses the fluctuation of nickel price and US dollars. The Company does not have any off-balance sheet arrangements or commitments that are expected to have a current or future effect on its financial condition or results of operations, other than those disclosed in this MD&A and the unaudited condensed interim financial statements for the three and nine months ended September 30, 2014 and the related notes.

The following describes the types of risks that the Company is exposed to and its objectives and policies for managing those risk exposures.

a) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's trade receivables. The carrying value of financial assets represents the maximum credit exposure. Currently, no trade receivable is outstanding and therefore such credit risk is remote.

b) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages liquidity risk through regular forecasting and the management of its capital structure. As at September 30, 2014, the Company has limited funds to meet its short term financial liabilities, and the working capital, net of \$8,941,850 advances from a related party and \$46,683,220 loans payable, was in a deficit position of \$251,947. Accordingly, additional financing is required for the Company to continue as a going concern. Based on the contractual obligations of the Company as at September 30, 2014, cash outflow of those obligations are estimated and summarized as follows:

Contractual Obligations	Payment Due by Period			
	Less than 1 year	1 - 3 years	After 5 years	Total
Loans payable	\$ 46,683,220	\$ -	\$ -	\$ 46,683,220
Finance lease obligations	6,730	-	-	6,730
Accounts payable and accrued liabilities	10,749,906	-	-	10,749,906
Total Contractual Obligations	\$ 57,439,856	\$ -	\$ -	\$ 57,439,856

CaNickel Mining Limited

c) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise three types of risk: interest rate risk, currency risk, and commodity price risk. Financial instruments affected by market risk include loans and borrowings, deposits, accounts receivable, accounts payable and accrued liabilities, and derivative financial instruments.

i) Interest rate risk

The Company has cash subject to fluctuations in interest rates. The Company's current policy is to invest excess cash in short-term deposit issued by financial institutions. As at September 30, 2014, the Company had \$46,683,220 loans payable bearing fixed coupon rates of 10% to 12% per annum, therefore change of interest rate has no effect on the Company's comprehensive loss. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks. The Company also monitors the debt facility interest rates and balance advanced under the facilities. Currently, the Company does not hedge against interest rate risk.

ii) Foreign currency risk

The Company's functional currency is the Canadian dollar and major purchases are transacted in Canadian dollars. The Company is exposed to foreign exchange risk as a result of sales transactions and financing activities being denominated in US dollars. As at September 30, 2014, the following financial assets and liabilities are denominated in US Dollars.

Expressed in Canadian dollar equivalents	September 30, 2014	December 31, 2013
<hr/>		
Financial assets denominated in US Dollars		
Cash	\$ 917	\$ 202
	<hr/>	<hr/>
	917	202
<hr/>		
Financial liabilities denominated in US Dollars		
Accounts payables and accrued liabilities	5,379,840	5,115,773
Loans payable	46,683,220	40,822,120
	<hr/>	<hr/>
	\$ 52,063,060	\$ 45,937,893
<hr/>		

Based on the financial assets and liabilities denominated in US dollars as at September 30, 2014, every 1% strengthening in Canadian dollars would decrease net loss by \$520,621 (December 31, 2013 - \$459,377). Every 1% weakening in Canadian dollars would increase net loss by \$520,621 (December 31, 2013 - \$459,377). The Company currently has not entered into any agreement to hedge the foreign exchange risk.

iii) Commodity price risk

The Company is exposed to price risk with respect to commodity prices, mainly nickel prices. The Company closely monitors commodity prices to determine the appropriate course of action to be taken. The Company's future mining operations will be significantly affected by changes in the market prices for nickel. Prices fluctuate on a daily basis and are affected by numerous factors beyond the Company's control. The supply and demand for nickel, the level of interest rates, the rate of inflation, investment

CaNickel Mining Limited

decisions by large holders of nickel and stability of exchange rates can all cause significant fluctuations in nickel prices. Such external economic factors are in turn influenced by changes in international investment patterns and monetary systems and political developments.

In July 2012, the Company suspended its mining operation due to unfavourable nickel prices. The timing to resume mining operations would mainly depend on the nickel prices. As at September 30, 2014, the Company has no nickel sales receivable, forward sales contracts, or call options outstanding. Change of commodity prices would not have any significant impact on the financial position of the Company as at September 30, 2014.

d) Environmental risk

The operations of the Company are subject to various reclamation-related conditions imposed under federal or provincial rules and permits. The Company believes that the primary environmental management issues, related with the Bucko Mine are associated with the treatment and disposal of mill tailings and related effluent. The Company has a progressive environmental management plan for the prevention of adverse environmental impacts during the life of the mine, including further exploration, mining and milling operation and closure.

Challenges with the federal permitting process to allow disposal of tailings in Bucko Lake and the unlikelihood that Environment Canada will recommend authorization caused the Company to consider alternative solution for tailings disposal. A Notice of Alteration (NOA) to its original Environment Act License Proposal in December 2007 to include the provision for an interim (land-based) tailings storage facility (ITSF) was submitted and approved.

The Company received its Environment Act License from the Province of Manitoba to permit the Company to commence production at the Bucko Lake Nickel Mine in Manitoba. In September 2011, the Company was granted by the Manitoba government a revised Environment Act Licence (the "Licence") to construct and operate a land based tailing management area (the "TMA") at its Bucko Lake Mine, Wabowden, Manitoba. The TMA is an expansion of the existing ITSF and has a footprint of approximately 68.5 hectares to store all tailing from Bucko Lake Mine for the remainder of its existing mine life. Environmental studies indicated that the TMA would have a net benefit in relation to environmental impact, eliminating the need for sub-aqueous deposition of the tailing into Bucko Lake Mine. The construction of the TMA will be carried in two phases and the phase I construction was completed in March 2012. As Bucko Lake Mine currently is on care and maintenance, the phase II construction is currently uncertain.

During the care and maintenance period, the Company is required to maintain active environmental monitoring at Bucko Lake Mine to comply all requirements of the Licence. If the Company fails to comply with those requirements, the Licence could be revoked and significant fines and penalty would be charged to the Company. Management has been actively working with the related government agents to comply with the environmental requirements.

RELATED PARTY TRANSACTIONS

Related party transactions were in the normal course of operations and were measured at the exchange amount, which is the amount of consideration established and agreed by the related parties. Related party transactions not disclosed elsewhere include the following:

(a) Transactions with key management

The Company has identified its directors and certain senior officers as its key management personnel. The compensation cost for key management personnel is as follows:

	<u>Three months ended September 30,</u>		<u>Nine months ended September 30,</u>	
	2014	2013	2014	2013
Salaries and fees	\$ 41,250	\$ 38,850	\$ 123,750	\$ 123,750
Share based compensation	-	-	-	1,856
	\$ 41,250	\$ 38,850	\$ 123,750	\$ 125,606

(b) Transactions with Hebei Wenfeng

During the three and nine months ended September 30, 2014, Hebei Wenfeng advanced \$200,000 and \$1,250,000, respectively, to the Company to run its normal operations. As at September 30, 2014, a total of \$8,941,850 advanced from Hebei Wenfeng remained outstanding. The advance bears no interest and is due on demand and included as part of accounts payable and accrued liabilities on the condensed interim statements of financial position.

In May 2011, the Company arranged a one year term unsecured debt facility of US\$5,000,000 (the "Loan") with Hebei Wenfeng. The Loan bears interest at 10% per annum. The Company will also pay 2% of any funds drawn down under the Loan as a structuring fee to Hebei Wenfeng. Principal, interest and structure fees are payable upon maturity. In March 2012, the Loan was amended and extended to three years term maturing May 28, 2014. During the three and nine months ended September 30, 2014, interest expenses of \$175,655 and \$517,050 (same period last year - \$152,196 and \$439,627), respectively, were accrued and foreign exchange loss of \$360,112 and \$376,376 (same period last year – a gain of \$127,364 and a loss of \$207,490), respectively, were recorded 264 foreign exchange loss) was recorded on the Loan. As at September 30, 2014, the outstanding balance of the Loan, including interest accretion and foreign exchange impact, was \$7,660,575.

The Company entered into an unsecured debt facility of up to US\$15 million in July 2011 and increased to US\$25 million in December 2011 with Luckyup Investment Limited ("Luckyup"), an arm's-length party based in Hong Kong. This debt facility bears interest of 12% per annum. Principal and interest are payable upon maturity. In March 2012, the Company entered into an amended agreement with Luckyup to extend the maturity date from one year term to three years term expiring July 22, 2014. During the three and nine months ended September 30, 2014, interest expenses of \$1,584,575 and \$3,602,474 (same period last year - \$890,562 and \$2,562,347), respectively, was accrued and foreign exchange losses of \$1,831,402 and \$1,905,201 (same period last year – a gain of \$636,784 and a loss of \$1,029,691), respectively, were recorded on this debt facility. As at September 30, 2014, the outstanding balance of

CaNickel Mining Limited

this debt facility, including interest accretion and foreign exchange impact, was \$39,022,465.

Subsequent to September 30, 2014, Luckyup irrevocably and unconditionally transferred/assigned to Hebei Wenfeng all of its present and future right, title and interest and to the debt facility agreement and its related amendments with the Company, including but not limited to the right to receive future repayments and interest arising from the debt facility. Upon this transfer, all loans payable are becoming related party transactions, payable to Hebei Wenfeng.

Subsequent to September 30, 2014, the Company received a notice from Hebei Wenfeng that Hebei Wenfeng is to forgive the Company a total of US\$3,500,000 interest.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The accounting policies applied in preparation of these financial statements are consistent with those applied and disclosed in the Company's audited financial statements for the year ended December 31, 2013, with the exception of the application of IFRIC 21 as described below:

IFRIC 21, Levies ("IFRIC 21") was adopted by the Company effective January 1, 2014. IFRIC 21 provides guidance on the accounting for a liability to pay a levy, if that liability is within the scope of IAS 37, Provisions, Contingent Liabilities and Contingent Assets. Levies are imposed by governments in accordance with legislation and do not include income taxes, which are accounted for under IAS 12, Income Taxes or fines or other penalties imposed for breaches of legislation. The interpretation was issued to address diversity in practice around when the liability to pay a levy is recognized. An example of a common levy is property taxes.

IFRIC 21 defines an obligating event as the activity that triggers the payment of the levy, as identified by legislation. A liability to pay a levy is recognized at the date of the obligating event, which may be at a point in time or over a period of time. The fact that an entity is economically compelled to continue to operate in the future, or prepares its financial statements on a going concern basis, does not create an obligation to pay a levy that will arise in a future period as a result of continuing to operate.

The adoption of IFRIC 21 did not affect our financial results or disclosures as our analysis determined that no changes were required to our existing accounting treatment of levies.

The Company's management makes judgments in its process of applying the Company's accounting policies in the preparation of its unaudited condensed interim financial statements. In addition, the preparation of the financial data requires that the Company's management make assumptions and estimates of effects of uncertain future events on the carrying amounts of the Company's assets and liabilities at the end of the reporting period and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates as the estimation process is inherently uncertain. Estimates are reviewed on an ongoing basis based on historical experience and other factors that are considered to be relevant under the circumstances. Revisions to estimates and the resulting effects on the carrying amounts of the Company's assets and liabilities are accounted for prospectively. The critical judgments and estimates applied in the preparation of these condensed interim financial statements are consistent with those applied and disclosed in note 3 to the Company's financial statements for the year ended December 31, 2013.

CaNickel Mining Limited

Readers are encouraged to refer to the critical accounting policies and estimates as described in the Company's audited consolidated financial statements and MD&A for the year ended December 31, 2013.

CONTINGENCIES AND LEGAL MATTERS

Since the mining operation was suspended in July 2012, the Company has been encountering difficulties in retiring some outstanding accounts payables in accordance with terms provided by vendors, and therefore expects that some liens will be placed and legal actions will be initiated. As at September 30, 2014, there was one lien placed against Bucko Lake Mine for \$377,086. In January 2014, the Company received a statement of claim for \$377,086 from the same contractor who placed the lien against Bucko Lake Mine. The Company believed that it has fulfilled its contracted obligations to make payment to the contractor and the claim has no base; accordingly, the Company retained legal counsels to file a statement of defense and also made a counter claim for refund of overpayment for services not delivered and damages to be determined by court. No further action was carried by the plaintiff since our filing of the defense and counter claim. No provision has been provided for this claim.

In September 2014, the Company reached a settlement agreement with one vendor who filed a statement of claim against the Company in prior year and paid 50% of the amount claimed to the vendor, and a gain of \$69,825 was recorded on this settlement.

As at September 30, 2014, there were two statements of claims against the Company for a total of approximately \$390,000 remained outstanding, of which a total of \$21,850 provisions have been recorded and included in the accounts payable and accrued liabilities on the condensed interim statement of financial position.

OUTSTANDING SHARE DATA

As at the date of this report, a total of 37,520,668 common shares of the Company were issued and outstanding. Of the options to purchase common shares issued to directors, officers, employees, and consultants of the Company under the share option plan, 52,500 remain outstanding with exercise prices ranging from \$2.60 to \$6.40, with expiry dates ranging from March 15, 2014 to June 22, 2016.

OFF BALANCE SHEET ITEMS

There are no off balance sheet items.

PROPOSED TRANSACTIONS

There are no proposed assets or business acquisition or disposition.

DISCLOSURE CONTROLS AND INTERNAL CONTROLS OVER FINANCIAL REPORTING

Management's Report on Disclosure Controls and Procedures

The Company's management, with the participation of its Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures. Based upon

CaNickel Mining Limited

the results of that evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures were effective to provide reasonable assurance that the information required to be disclosed by the Company in reports it files is recorded, processed, summarized and reported, within the appropriate time periods and is accumulated and communicated to management, including Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Internal Control over Financial Reporting

The Company's management, with the participation of its Chief Executive Officer and Chief Financial Officer, is responsible for establishing and maintaining adequate internal control over financial reporting. Under the supervision of Chief Executive Officer and Chief Financial Officer, the Company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with IFRS. The Company's internal control over financial reporting includes policies and procedures that:

- pertain to the maintenance of records that accurately and fairly reflect, in reasonable detail, the transactions and dispositions of assets of the Company;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with IFRS and that the Company's receipts and expenditures are made only in accordance with authorizations of management and the Company's Directors; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the Company's consolidated financial statements.

The Company's management team, including the Interim Chief Executive Officer and Chief Financial Officer, reviewed and evaluated the internal control procedures in place and determined that there has been no changes in the Company's internal control over financial reporting during the three and nine months ended September 30, 2014 that have materially affected or are reasonably likely to materially affect, the Company's internal control over financial reporting. Management has concluded that the Company's internal control over financial reporting was effective as September 30, 2014 to provide a reasonable assurance of the reliability of our financial reporting and preparation of the financial statements.

Limitations of Controls and Procedures

The Company's management, including Chief Executive Officer and Chief Financial Officer, believes that any disclosure controls and procedures or internal control over financial reporting, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, they cannot provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been prevented or detected. These inherent

CaNickel Mining Limited

limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by unauthorized override of the control. The design of any control system also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Accordingly, because of the inherent limitations in a cost effective control system, misstatements due to error or fraud may occur and not be detected.

OTHER INFORMATION

Additional information regarding the Company is included in the Company's Annual Information Form ("AIF"), which is available at www.sedar.com.
