

CANICKEL MINING LIMITED

Unaudited Condensed Interim Financial Statements

for the three months ending June 30, 2025

NOTES TO READER

These unaudited condensed interim financial statements of CANICKEL MINING LIMITED (the "Company") have been prepared by the management of the Company and have not been reviewed by the Company's independent auditors. Therefore, they should be read in conjunction with the Company's most recent audited financial statements available on SEDAR at www.sedar.com. The accompanying notes form an integral part of these unaudited condensed interim financial statements. All figures are expressed in Canadian dollars except for share data and where otherwise stated.

Going concern (Note 1)

Contingencies and Legal Matters (Note 3)

APPROVED ON BEHALF OF THE BOARD OF DIRECTORS

Wenfeng Liu, Director

Lu Zhang, Director

NOTES

1. CORPORATE INFORMATION

CANICKEL MINING LIMITED is a Canadian resource company focused on the care and maintenance of its 100% owned Bucko Lake property (the "Bucko Lake Property") and other exploration assets (the "Exploration Properties") near Wabowden, Manitoba. The Bucko Lake Property consists of the formerly producing Bucko Lake Mine and associated mineral leases. Other Exploration Properties include additional mineral leases in the greater Thomson Nickel Belt region.

The Bucko Lake Mine achieved commercial production in 2009 and was placed into care and maintenance in 2012. Since then, the Company has carried out minimal exploration work to maintain mineral leases in good standing and safeguard the Company's assets.

In 2017, the Company made an investment in Welichem Research General Partnership (the "Welichem Partnership") in partnership with LJ Resources Co., Ltd. ("LJ Resources"). The Company continues to explore other investment opportunities as they arise from time to time.

Going Concern

These financial statements have been prepared on a going concern basis and do not reflect any adjustments that may be necessary if the Company is unable to continue as a going concern. There is material uncertainty on the Company's ability to continue as a going concern. The Company has significant accumulated deficit and significant working capital deficiency and relies on continued funding from the Company's largest shareholder and creditor, Hebei Wenfeng Industrial Company Limited ("Hebei Wenfeng"). In the event that Hebei Wenfeng discontinues its support and demands the repayment of its loans and advances, the Company would be insolvent and material adjustments would have to be made to these financial statements.

Due to the Company's strained financial position, the Company has been evaluating strategic alternatives for the Bucko Lake Property and Exploration Properties. The Company signed an option agreement with Blackstone Minerals Limited and its subsidiary, Cobalt One Energy Corporation, in December 2023, pursuant to which Cobalt One was granted the exclusive right and option for a 12-month period to purchase CaNickel's Bucko Lake Mine. The option was extended for 30 days in December 2024 and subsequently terminated in January 2025.

2. MATERIAL ACCOUNTING POLICIES

a) Statement of Compliance

These financial statements have been prepared in accordance with IFRS Accounting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”). These financial statements have been approved by the Board of Directors.

b) Basis of Measurement

These financial statements have been prepared on a historical cost basis except for certain financial instruments measured at fair value. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

c) Income (loss) Per Share

Basic earnings or loss per share is calculated by dividing the earnings or loss for the period by the weighted average number of shares outstanding during the same period.

d) Functional Currency

The Canadian dollar has been identified as the functional currency of the Company and the financial statements are presented in Canadian dollars.

c) Significant Accounting Judgements, Estimates and Assumptions

The preparation of the financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. The Company has identified the following areas where significant judgment, estimates and assumptions are required.

Mineral properties, plant and equipment

Mineral properties, plant and equipment were recorded at cost less accumulated depreciation, depletion and amortization, and accumulated impairment losses. Plant and equipment were amortized to their estimated residual value on a straight-line basis over the shorter of their estimated useful lives and economic lives of 20 years for Buildings and 3 to 10 years for Equipment.

The Company assesses the Bucko Lake Properties and Exploration Properties each reporting period to determine whether any indication of impairment exists. Where an indicator of impairment exists, an estimate of the recoverable amount is made using the fair value less costs of disposal ("FVLCD"). Fair value estimates are based on discounted cash flows or the amount that would be obtained from the sale of the asset in an arm's length transaction between knowledgeable and willing parties.

The Exploration Properties and the mineral leases of the Bucko Lake Property have been deemed impaired and their carrying amount have been written off. The plant, building and equipment of the Bucko Lake Mine continued to be depreciated in normal course until the end of 2024. Since the beginning of 2025, the Company has accounted for the Bucko Lake Mine and all associated property as Held-for-sale and a continued effort has been underway to market the asset for sale.

The Company assesses its site closure and reclamation provisions at each reporting date. Significant estimates and assumptions are made in determining the provision for mine rehabilitation as there are numerous factors that will affect the ultimate amount payable. These factors include estimates of the extent, cost, and timing of rehabilitation activities; technological changes; regulatory changes; cost increases as compared to the changes of inflation rate; and discount rates. These uncertainties may result in future expenditures differing from the amounts currently provided. The provision at the reporting date represents management's best estimate of the present value of the future reclamation costs required.

Investment In Associate

The Company applies the equity method to account for its investments in the Welichem Partnership because it has significant influence in the Welichem Partnership. An associate is an entity over which the Company has significant influence and that is neither a subsidiary nor an interest in a joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but without control or joint control over those policies.

Under the equity method, investments in associates are initially recognized in the statements of financial position at cost and adjusted thereafter to recognize the Company's share of the profit or loss and other comprehensive income (loss) of the associate and distributions received from the associate.

If the associate subsequently reports surpluses, the Company resumes recognizing its share of those surpluses only after its share of surpluses equals the share of losses not recognized. Any excess of the Company's share of the net fair value of the identifiable assets, liabilities and contingent liabilities over the cost of acquisition, after reassessment, is recognized immediately in profit or loss.

3. SUPPLEMENTAL DISCLOSURES

a) Segmented Information

The Company currently operates in a single reportable segment and is focused on nickel mining and related activities, including exploration and the extraction and processing of nickel-containing ore. All assets of the Company are in Canada. The investment in associate is not considered a separate segment as the Company is not making operational decisions of the associate.

b) Share Capital

The authorized share capital of the Company includes unlimited common shares without par value and unlimited Class A and Class B preferred shares without par value. During the periods reported, no Class A and Class B preferred shares are issued and outstanding and no common shares were reserved or issued.

The Company has a stock option plan designed to encourage directors, officers, employees and consultants of the Company to have equity participation in the Company through the acquisition of common shares. The Company may issue options to purchase common shares equal to 10% of the issued and outstanding common shares of the Company. Options are non-transferable, non-assignable and may be granted for a term not exceeding five years. The exercise price of the options and vesting provisions, if any, are fixed by the Board of Directors of the Company at a price not below the market price of the common shares at the time of grant, subject to all applicable regulatory requirements. There are no cash settlement alternatives. During the periods reported, no option was granted and no option remained outstanding.

c) Contingencies and Legal Matters

In 2017, the Company was charged with offenses under the Canadian Fisheries Act for certain alleged infractions at the Bucko Lake Mine. In 2022, the Company pleaded guilty and accepted a total fine of \$200,000, which was fully paid.

d) Financial Instruments

The financial instruments of the Company consist only of cash and the reclamation deposit, both of which are valued using quoted market prices of cash.

Fair value measurement	June 30, 2025	December 31, 2024
Cash	CA\$231,257	CA\$398,488
Reclamation deposit	CA\$2,537,374	CA\$2,537,374

e) Related party transactions

Transactions with management

The compensation cost for management, including fees paid or payable to companies controlled by management is found below.

	Three months ended June 30	
	2025	2024
Salaries and fees	CA\$26,775	CA\$25,500

Transactions with LJ Resources

In 2024, the Company advanced a loan of \$425,577 to LJ Resources. The loan was non-interest bearing. The loan had no specific terms of repayment. In 2025, the Company exchanged this receivable as well as its USD bank balance of USD \$4,581.58 for certain equipment owned by LJ Resources. As a result of this exchange, the Company no longer had any non-Canadian dollar bank deposits and gained additional equipment.

Transactions with Hebei Wenfeng

Details of transactions with Hebei Wenfeng are found below under Loans and Advances from Related Parties.

4. MINERAL PROPERTIES, PLANT AND EQUIPMENT

Cost	Bucko Lake Property		Exploration Properties	Total

	Plant, building and equipment	Mineral leases		
December 31, 2024	2,614,558	-	-	2,614,558

Net Book Value	Bucko Lake Property		Exploration Properties	Total
	Plant, building and equipment	Mineral leases		
June 30, 2024	3,025,705	-	-	3,025,705

Exploration Properties

Management has determined that the carrying amount of the Exploration Properties exceeded its recoverable amount and its carrying amount was written off based on an estimate of FVLCD as the Company has no plans to carry further exploration program. Expenditures paid to maintain certain claims in good standing were recorded as exploration and evaluation expenses on the statements of income (loss) and comprehensive income (loss).

Bucko Lake Property

The Bucko Lake Mine, located near the town of Wabowden, Manitoba, first declared commercial production in 2009, but has been placed on care and maintenance due to unfavourable nickel prices since July 2012. Management has determined that the carrying amount of the mineral leases associated with the Bucko Lake Property exceeded its recoverable amount and its carrying amount was written off based on an estimate of FVLCD. The Bucko Lake Mine plant, building and equipment continued to be carried at cost and depreciated until the end of 2024. Since the beginning of 2025, the Bucko Lake Mine and all associated property have been accounted for as Held-for-sale given the sustained effort to market and sell the asset.

Transaction with Cobalt One

In December 2023, the Company signed an option agreement with Blackstone Minerals and its subsidiary, Cobalt One, pursuant to which Cobalt One was granted the exclusive right and option for a 12-month period (the "Option") to purchase the Bucko Lake Mine, including all mineral titles, permits, licenses, plant, building and equipment related to the mine. As consideration for the Option, the Company was paid a non-refundable option fee of \$1,167,337 by Cobalt One. Upon exercise of the option, the Company and Cobalt One would enter into an asset purchase agreement whereby Cobalt One would be required to pay further cash proceeds of up to \$69 million and shares of Blackstone valued at \$10 million over a period of time. The Company has recorded the amount received of \$1,267,337 as a deposit. In December 2024, the Company received a payment of \$100,000 from Cobalt One to extend the option agreement for 30 days. In January 2025, Cobalt One was unable to exercise the Option for the Bucko Lake Mine or pay further extension payments for the Option, resulting the expiry of the option agreement and the non-refundable deposit was taken into other income.

5. SITE CLOSURE AND RECLAMATION PROVISIONS

	June 30, 2025	December 31, 2024
Balance, beginning of period	8,108,259	8,590,017
Accretion	140,266	259,419
Change in estimates	-	(741,177)
Balance, end of period	8,248,525	8,108,259

The site closure and reclamation provision represent the present value of reclamation costs related to Bucko Lake Mine. These provisions have been created based on the Company's estimates. Assumptions based on the current economic environment have been made, which management believes are a reasonable basis upon which to estimate the future liability. These estimates are reviewed regularly to take into account any material changes to the assumptions. However, actual reclamation costs will ultimately depend upon future market prices for the necessary reclamation works required that will reflect market conditions at the relevant time.

The un-discounted inflation-adjusted value of these obligations is estimated to be \$15,454,513 as at December 31, 2024 (2023 - \$13,690,950), calculated using an average inflation rate of 2.00% (2023 - 2.05%). Using a discount rate of 3.33% (2023 - 3.02%), the present value of the site closure and reclamation provisions as at December 31, 2024, was estimated to be \$8,108,259 (2023 - \$8,859,017). The revision of the estimate has been recorded as a decrease to the carrying amount of the Bucko Lake Mine and allocated between the mineral property, resulting in change in estimates for the reclamation provision of \$741,177, acquisition and development and the plant, building and equipment with a corresponding decrease in the site closure and reclamation provision.

Reclamation Deposit

In March 2021, the Company paid \$2,000,000 to the Government of Manitoba as the reclamation deposits of the Company's Bucko Lake Mine. As at March 31, 2024, a total of \$2,537,374 reclamation deposits were paid in accordance with the requirements of the Government of Manitoba. These funds are not available to finance the Company's day-to-day operations and are recorded as non-current assets on the statements of financial positions.

6. INVESTMENT IN ASSOCIATE

	June 30, 2025	December 31, 2024
Investment amount	10,000,000	10,000,000
Accumulated share of income	74,292,963	74,292,963
Distribution received	(85,501,962)	(60,501,962)
Total	(1,208,999)	23,791,001

The Company owns 10 million Class A Preferred Units and 50 General Units of Welichem Research General Partnership (the “Welichem Partnership”). LJ Resources owns 10 million Class B Preferred Units and 50 General Units of the Welichem Partnership. The Company uses the equity method to account for its investment in the Welichem Partnership.

The Company has a 50% ownership interest in the Welichem Partnership. Although the Company is jointly liable for any and all liabilities, claims, or commitments made by the Welichem Partnership, the Company does not have joint control, as all decisions about the relevant activities of the Welichem Partnership are held by LJ Resources. Accordingly, the Company has determined that it has significant influence and has applied the equity method to account for the Welichem Partnership.

The Welichem Partnership has minimal business activity and its sole assets are contingent milestone payments associated with previous sales of research patents and mining equipment.

7. INVESTMENT IN MORTGAGE

In 2025, the Company identified investment opportunities in the mortgage industry. The Company purchased the mortgage on a commercial real property in the Greater Vancouver area to earn interest income. The Company will continue to seek such investment opportunities.

8. LOANS AND ADVANCES FROM RELATED PARTIES

	Loans	Advances	Total
December 31, 2023	100,085,979	3,068,768	103,154,747
Interest accrued	12,855,870	182,808	13,038,678

Foreign exchange	(2,367,279)	-	(2,367,279)
December 31, 2024	122,391,217	1,959,900	124,351,117
Addition		250,000	
June 30, 2025	122,391,217	2,209,900	124,601,117

Interest-bearing loans

As of March 31, 2017, the Company had an aggregate of USD \$56,205,244 and CAD \$5,937,730 in loans owed to Hebei Wenfeng. Some of the loans were interest-bearing, others were interest-free, and all loans were unsecured. As of the end of 2024, a single interest-bearing loan of \$122,391,217 and a single interest-free advance of \$1,959,900 were outstanding.

In 2025, the Company entered into a Forbearance Agreement with Hebei Wenfeng under which the loan and advances outstanding to Hebei Wenfeng as of December 31, 2024, became denominated in Canadian Dollars and Hebei Wenfeng agreed to waive interest on the loans and advances for the 2025 year. The loans and advances remained unsecured.

9. SUPPLEMENTAL INFORMATION
